

Kicking Horse Canyon – UPDATE: November 2023 Traffic Schedule

November 29, 2023

Please be advised that the Trans-Canada Highway through the Kicking Horse Canyon will go into full four-lane operation at 7 am MST, Thursday, November 30. This milestone marks substantial completion of Phase 4 construction, bringing an end to planned intermittent lane closures and overnight full closures until Spring 2024. The highway will have a posted speed limit of 80 km/h. Kicking Horse Canyon Constructors will enter winter shutdown in early December.

In Spring 2024, following the winter shutdown, there may be intermittent lane closures and overnight full closures to complete Kicking Horse Canyon Phase 4 construction, with two lane traffic in order to complete work to include landscaping, wildlife fence installation, some final paving and painting of permanent line markings. Kicking Horse Canyon Constructors will provide advance notification of the 2024 springtime traffic construction schedule in March 2024.

Travelers are advised to check for updates on the project website ([Construction/Traffic Notifications](#) and the [Highway Status Calendar](#)) and always visit [DriveBC](#) for the most current information.
